

Imath Wickramarachchi

Data Science Undergraduate | Aspiring Data Analyst | ML Engineer

Data Science undergraduate at RMIT University with experience on applying machine learning, NLP and data visualization to real world problems. Skilled in Python, R, and database systems with practical exposure to building RAG-based AI applications and analysing large unstructured datasets. Combines technical ability with proven leadership and financial management experience. Seeking a data analyst, BI, or data science internship role where I can turn data into actionable insight.

Technical Skills

Programming

Python, R, SQL

Machine Learning & AI

Scikit-learn, NLP, RAG & LLM Pipelines

Data Visualization

EDA, Statistical Analysis, Streamlit
Dashboards

Databases & Tools

MySQL, MongoDB, Git, GitHub, VS Code

Soft Skills

Leadership, Communication,
Presentation, Stakeholder Management

Education

Bachelor of Data Science

RMIT University, Australia

Feb 2024 - Present

Bachelor of CS - IT

Edith Cowan University,
Sri Lanka

Jul 2023 - Feb 2024

Diploma of Science

Edith Cowan College,
Sri Lanka

Feb 2023 - Jul 2023

Foundation of Science

Australian College of Business
& Management - Sri Lanka

Feb 2022 - Jul 2023

Projects

FinGenie - ASX Financial RAG Assistant | RMIT WIL Project

https://github.com/rmit-ds-investor-assistant/WIL_RAG

-Collaborated in a WIL team to build FinGenie, a RAG chatbot for querying 20 ASX companies' financial disclosures in natural language.

-Cleaned and structured financial data from 20 ASX companies for a ChromaDB vector store, enabling accurate retrieval.

-Evaluated retrieval accuracy and hallucination rate using ROUGE metrics to improve response reliability.

-Integrated Llama 3.2 (via Ollama) into a RAG pipeline to ground responses in verified report data.

-Presented the model to academic supervisors, translating technical results into a clear, non-technical narrative.

Tools: Python, Streamlit, ChromaDB, Ollama, Llama 3.2, NLP, RAG

Travel Experiences & Perceptions - Social Media NLP Analysis

<https://github.com/ImathW/Sentiment-and-Topic-Analysis-on-Travel-Experience-and-Perceptions-By-using-Reddit-Data>

- Analysed 800+ Reddit posts and 13,000+ comments from travel subreddits

- Applied full NLP pipeline, tokenization, stopword removal, stemming, sentiment analysis, topic modelling

- Used VADER sentiment analysis and LDA topic modelling to uncover themes

- Found positive discussions dominate, challenge posts attract higher engagement

Tools: Python, NLP, VADER, LDA, Social Media Analytics

Leadership & Involvement

Treasurer & Sponsorship Lead | RMIT Sri Lankan Association | Sep 2025 - Present

- Managed budgets for major cultural and community events

- Secured corporate sponsorships and partnerships

- Planned fundraising initiatives meeting financial targets

- Developed experience in financial planning, stakeholder communication, and teamwork

Work Experience

Supervisor | Star Shining Facility Solutions pty, Melbourne | July 2025 - Present

- Supervise and coordinate cleaning teams across commercial sites

-Manage shift rosters, quality inspections and site handovers
