

Imath Wickramarachi

Data Science Undergraduate | Aspiring Data Analyst / ML Engineer

Data Science undergraduate at RMIT University with hands-on experience applying machine learning, NLP, and data visualisation to real-world problems. Skilled in Python, R, and database systems, with practical exposure to building RAG-based AI applications and analysing large unstructured datasets. Combines technical ability with proven leadership and financial-management experience. Seeking a data analyst, BI, or data science internship role where I can turn data into actionable insight.

Technical Skills

Programming

Python, R, SQL

Machine Learning & AI

NLP, VADER, LDA, RAG, LLMs, Scikit-learn

Data Visualization

EDA, Statistical Analysis, Streamlit Dashboards

Databases & Tools

ChromaDB, Git, GitHub, Ollama

Soft Skills

Leadership, Communication, Presentation, Stakeholder Mgmt

Education

Bachelor of Data Science

RMIT University, Australia

Feb 2024 - Present

Bachelor of CS - IT

Edith Cowan University, Sri Lanka

Jul 2023 - Feb 2024

Diploma of Science

Edith Cowan College, Sri Lanka

Feb 2023 - Jul 2023

Foundation of Science

Australian College of Business & Management - Sri Lanka

Feb 2022 - Jul 2023

Projects

FinGenie - ASX Financial RAG Assistant | RMIT WIL Project

- Built a RAG chatbot providing financial insights on 20 ASX companies using 2024-2025 reports
- Designed interactive Streamlit front end with tables, graphs, and real-time chat
- Implemented semantic retrieval using mxbaai-embed-large embeddings and ChromaDB
- Used Llama 3.2 via Ollama for local response generation
- Evaluated with ROUGE-L, SBERT cosine similarity, and hallucination checks

Tools: Python, Streamlit, ChromaDB, Ollama, Llama 3.2, NLP, RAG

Travel Experiences & Perceptions - Social Media NLP Analysis

- Analysed 800+ Reddit posts and 13,000+ comments from travel subreddits
- Applied full NLP pipeline: tokenization, stopword removal, stemming, sentiment analysis, topic modelling
- Used VADER sentiment analysis and LDA topic modelling to uncover themes
- Found positive discussions dominate; challenge posts attract higher engagement

Tools: Python, NLP, VADER, LDA, Social Media Analytics

Leadership & Involvement

Treasurer & Sponsorship Lead | RMIT Sri Lankan Association | Sep 2025 - Present

- Managed budgets for major cultural and community events
- Secured corporate sponsorships and partnerships
- Planned fundraising initiatives meeting financial targets
- Developed experience in financial planning, stakeholder communication, and teamwork

Archivements

- Secured corporate sponsorship as part of student association leadership
- Delivered live technical project presentation for RMIT WIL project
- Active member of RMIT's student and data science communities
